## Ngata Year 7 Celebration of GROWTH Deep Learning

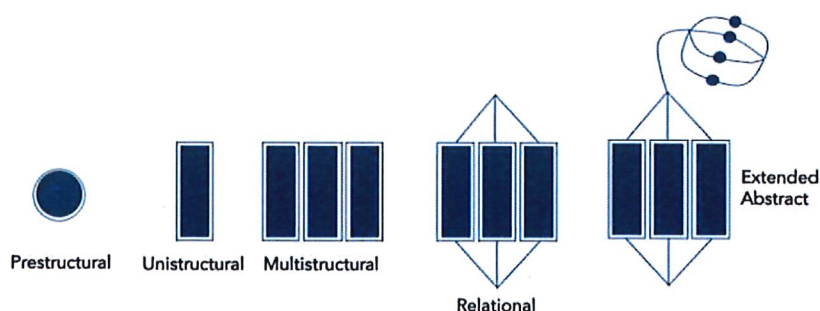

Dear Families,

Ngata Year 7 are walking to Somerfield School on Thursday 12 September to share our Growth learning with other students. We will be leaving school at approximately 12.45pm and returning before 3pm. We do not require parent supervision. There is no cost associated with this excursion.

This term every student in Year 7 chose a skill area to 'grow' in. They have been writing weekly reflections to share their success and next steps, and developing a resource to use to teach others.

We are now ready to share our learning! We have been fortunate enough to be given an opportunity to go to Somerfield School and each Ngata Year 7 student will be given a small group of students to teach.

This is an excellent opportunity to extend our Deep Learning into the Relational and Extended Abstract areas of SOLO.

Nga mihi nui,
